AUGUST 2022

## THE F&P OFFICE TEAM

We are extremely lucky to have a fantastic team at Farr & Pursey, both out on the road and in the office, who all share the same values in promoting preventative health care in horses.

**Tracey** joined the practice in April 2021. Tracey has over 20 years' experience in the industry, has previously worked with and owned horses and is in the office on Wednesday, Thursday and Friday. A friendly voice at the end of the phone assisting clients with her beloved dog Patch by her side. Patch can regularly be found spending his working day on the office sofa.

**Tanya** joined the practice in September 2020. Tanya was a client at Farr & Pursey before joining us on the other side of the desk. Tanya has been a horse owner for many years and has great experience helping to triage any calls and is in the office on Monday, Tuesday and Friday.

**Chloe** is our full-time Office Administrator and Clinical Aid so it is likely that, as well as speaking to her on the phone, you will see her out and about on yards assisting the Vets. Chloe is our 'Oracle'. There is nothing she doesn't know about running the Office and the day to day challenges of the Veterinary Practice including ordering drugs and supplies and overseeing the day to day Vets diaries, amongst many other tasks. Chloe has a keen interest in gastroscopy and laser treatment.

**Laura** is the newest addition to our team and joined the practice in June this year. Laura assists with in-house diagnostic testing, equipment maintenance, data updates and the general day-to-day running of the practice. Like us all, Laura has a great love for horses along with many pets of her own ranging from reptiles and small mammals to horses. Laura is the extra pair of hands that every practice needs and we are so glad that she joined our team.
