SEPTEMBER 2018

POOR PERFORMANCE

Does your horse feel not quite themselves or feeling lathergic, or do they need a pick me up as we head into Autumn? Blood sampling can be a very useful diagnostic tool in the investigation of poor performance, weightloss and even low grade colic.

IN-HOUSE LABORATORY

- Did you know we have a full 'in-house' laboratory
- We are able to run the most common of blood tests - haematology & biochemistry
- We aim to get the results to you the same day, often within hours of the sample being taken.

SEPTEMBER OFFER

- Throughout Septmeber we are offering a discount on our In-house blood tests
- This offer will include; Taking of blood, running the samples, a phone call from your vet for analysis of blood results & to discuss if further treatment is required, all for *£66.14*

HAEMO SUPPORT

A highly absorbable and extremely palatable Iron, B-complex and Cobalt-enriched syrup on a Sorbitol base. Recommended for performance horses, Veterinary Haemo Support will also act as an exceptional pick-me-up for post-viral uses and post-operative cases where horses may have lost appetite or for horses which have poor overall condition. High levels of Vitamin B12 ensure red blood cell formation is optimised and important metabolic functions are maintained.

CARE ABOUT CUSHINGS

Do you own a horse or pony over the age of 15? Are you confident with Cushing's?! Do you want to learn about laminitis? Could you confidently spot the signs of laminitis? To find out more and what signs to look for, go to www.careaboutcushings.co.uk.

DON'T FORGET OUR ONLINE SHOP

The site for all your horse's needs

VISIT OUR SHOP

Images of some of the symptoms of Cushings - an excessively hairy coat and laminitic rings on the hoof

Contact the practice to book your horse in for a blood test to test for Cushings or to run our in-house blood profiles.
