

# NEWSLETTER

JANUARY 2019

## NEW EQUIPMENT

We are excited to announce our new practice diagnostic equipment, enabling us to offer the most up to date and efficient service to our clients and horses.

### X-RAY, ULTRASOUND & REPRO SCANNER

- The latest equipment available
- Latest wireless digital X-ray machine
- Updated repro scanner plus new tendons scanner with a wireless ultrasound probe
- No mains power required- can be used in any environment - yard or field!

### DIGITAL MICROSCOPE WITH CAMERA

- Touchscreen tablet allowing clear images of samples being viewed.
- Camera/video enabling us to record and take images of samples.
- Portable allowing WEC's to still be carried out on yards if necessary.

### CONTACTING OUT OF HOURS (OOH)

We have a small request to our clients regarding contacting us OOH. The vets spend a large proportion of their day responding to messages sent directly to themselves which is no problem, however we would politely ask if clients could refrain from messaging the vets with non-urgent enquiries outside of our normal working hours (8:30am-6:30pm, Mon-Fri). For all emergencies, please telephone the office on (01442) 851921 at any time and we will get a vet out to you as soon as possible. The vets will always respond to your messages asap but, if they are not on call, they may not pick up your messages straight away.

## 5K FOR FLU

We are going to be holding an event at the end of January to raise awareness of Equine Influenza, "5k for Flu"! Did you know that Equine Influenza can travel up to 5km? We will be holding a fun walk (run for those for are feeling energetic heading into 2019). The 5km route will start & end at the practice and we hope that lots of you will join us for something a little bit different. Children and dogs are welcome - the more the merrier! Further details for this event will follow shortly.

## DON'T FORGET OUR ONLINE SHOP
