WELCOME BACK LISA

After a year away from the practice we are delighted to announce that Lisa has rejoined the Farr & Pursey family after her year off to have baby no.3. We know a lot of clients and horses have missed Lisa's visit out on the yards.

A little introduction for our new clients - Lisa is our practice veterinary nurse. Lisa will be in the practice two days a week and will be assisting the vets for procedures when required on Mondays and will be available for weigh clinics and worming visits on Thursdays.

Lisa has a keen passion for weight management with horses and is always on hand for help and advice for those clients that are needing extra support.

Lisa is looking forward to catching up with everyone over the coming weeks.

WORMING PACKAGE REMINDERS

We would like to remind clients on the worming package to keep an eye out for any email reminders that will be sent out when your worm egg counts samples are due. If you are worried you have missed any reminders or are unsure of when your horse's sample is next due please don't hesitate to contact the practice. Worm egg counts can also be carried out for any registered horses at the practice who are not on the worming package. The tests are £10 per sample and are recommended to be carried out over the grazing season between

March - October.

BOZMERIX RANGE

Is your horse on BozMerix long term? Alongside the box of 60 (10g) sachets of BozMerix there is also a 1.5kg pouch available. The price per gram is matched to be the same whether you purchase the box of sachets or the larger pouch. The 1.5kg pouch is also part of the loyalty scheme. Each box of sachets or pouch has a loyalty card enclosed inside. When 6 cards have been collected a FOC box is able to be redeemed (postal charges not included). Please note: the loyalty cards cannot be mixed between the various products.
