WORM EGG COUNTS:

For those clients that are already signed up to our annual worming package, please keep an eye out for you reminders that will be being sent out for upcoming samples due for testing over the grazing season. We also offer individual worm eggs counts for £10.

All worm egg counts are completed in-house.

WELCOME TO THE TEAM

Some of our clients may have had the pleasure to meeting Cova already. Covadonga Gómez Escribano (BVetMed, MRCVS), graduated from the University of Madrid (UCM) in 2018. Cova volunteered as a pathology undergraduate intern for 3 years whilst joining different equine clinicians in the ambulatory practice. After graduating, she undertook an externship in Ireland before enrolling an internship in equine medicine and surgery, followed by a second internship in equine sports medicine and orthopaedics, where she became FEI Permitted TreatingVet. Covadonga has a keen interest in ophthalmology and diagnostic imaging, which keeps her close to both medicine and orthopaedics. During the last years, Cova has been working to become CertAVP whilst working in the UK as an equine vet, covering the area between the East and South East of England. During her free time you may find her walking in the countryside or enjoying some good English chocolate!

Cova is looking forward to meeting all our fantastic clients and your beloved horses & ponies!
