WEIGHT MANAGEMENT

We are pleased to announce that Nikki & Lisa represented Farr & Pursey at the recent BEVA training event for Veterinary Professionals. Nikki & Lisa discussed the importance of running weight loss clinics in veterinary practices and providing a comprehensive owner support network.

Our registered nurse Lisa runs a very successful weight clinic and worming package giving clients the appropriate advice and support. Lisa has a wealth of knowledge to aid clients in weight management, nutrition & diet and worming.

If you would like further information, support materials or to arrange an appointment with Lisa to help manage your horse's weight, please contact the office on 01442 851921 or email admin@farrandpursey.com. Lisa is available for appointments on a Monday & Thursday.

NURSE FEE'S

- Nurse Weighbridge Visit Fee: £41.81 (this fee is for registered clients and is split across the number of clients seen on the same yard at the time of the appointment).
- Weigh Bridge Use (Non-Client): £6.24. Horses/owners on yards that Lisa attends who are not registered with the practice can have their horses weighed and advice given by Lisa. We ask that the client arranging the appointment informs the practice at the time of the booking the number of horses to be weighed in order to allocate an appropriate time.

FOAL SPEED AHEAD!

On Tuesday 29th April at 7pm we will be hosting our next client evening - Foal Speed Ahead!

So what's going on?

There will be a brief practice update discussing the latest news within the practice and details on the new SLEIP® GAIT ANALYSIS - using artificial intelligence to track over 100 anatomical key-points on the moving horse, quantifying gait asymmetry and detecting even small irregularities. Followed by a talk about all things breeding, presented by Nikki Pursey and our lovely new vet Georgina Llewellyn.
