JUNE 2025

WELCOME BACK EMILY F&P'S LITTLE MISS SUNSHINE IS BACK!!

We are very pleased to share that Emily is back from her 2nd season of working in the veterinary industry in New Zealand and will be joining us at the practice from June until the middle of September 2025.

As many of you know from your own experiences with Emily she is known as our very own Little Miss Sunshine. Emily has continued to expand her knowledge and has a wealth of experience.

We know many of you will be very happy to see Emily out and about on visits again and be welcomed by her infectious smile. Upon Emily leaving the practice in September, Emily will once again be continuing her adventures alongside her veterinary career, however will still be carrying out clinical work for the practice from time to time.

EHV VACCINE PRICES & GUIDELINES

Any horse receiving a new Primary Course must be vaccinated according to the following schedule:

- Initial vaccination administered
- Second vaccination must be administered 28-60 days after 1st vaccine
- Subsequent booster vaccinations must be administered at a maximum of 180 day intervals.
 - EHV vaccine cost: £48.16 (excl. visit fee)

****We recommend all clients check the vaccination guidelines with their representing governing body and have any required vaccinations carried out 7 days prior to travel****

EHVRY INHALE

Your horse can easily become infected with the airborne Equine Herpes Virus. Once infected, the virus can remain present for life and could be re-activated at any time. Keeping your horse's vaccinations up to date reduces respiratory disease from EHV, and helps protect other horses that yours may come in contact with. Contact the practice for more information.
