MARCH 2026

## MOBILE GASTROSCOPY

At Farr & Pursey Equine we have a fully mobile gastroscopie enabling us to carry out procedures on the yard with no mains power required. The procedure is quick and simple and in the majority of cases we are able to scope your horse in less than 30 minutes from start to finish.

This eliminates travel stress that comes with moving your horse, and keeps them within a familiar environment.

### OUR STATE-OF-THE-ART MOBILE GASTROSCOPE

#### ALLOWS US TO:

- Visualise the entire stomach lining
- Capture high-quality images for documentation
- Provide immediate results and treatment plans
- Perform follow-up evaluations to monitor healing.

If you think your horse is showing signs of gastric ulcers (poor appetite, weight loss, behavioural changes under saddle, girthiness or sensitivity) feel free to contact the office to book in your mobile gastroscopie.

### FACEBOOK

Don't forget to join our Facebook Group- get in touch with each other, share thoughts, contacts and tell us what you want!

### PREVENTATIVE DENTAL WORK CAN SAVE A HORSE'S TEETH

Check out our online videos of dental work done .

### LAMENESS SENSORS

Contact the practice for more information or to make an appointment for your horse

## WELCOME BACK EMILY

We are extremely happy to share that Emily is back from her 3rd sabbatical and is working full time at the practice.

As many of you know Emily is F&P's Little Miss Sunshine, and she is looking forward to seeing all our lovely clients out and about on visits.

## DENTAL CHARTS

The company we use for your horse's dental charts has now launched an app. The Pimbury app allows you to easily access your horse's dental records and reminders. Only you can access your account, keeping your horse's dental records secure.

For more information use the link to go to the Pimbury website and see the app demo!
