OCTOBER 2026

Your Horse, Your Choice

## SWEET ITCH

Does your horse/pony suffer from sweet itch? We are starting to compile the 2027 list for horses we hope to help manage the condition.

For more information please contact the office on 01442851921 or email [admin@farrandpursey.com](mailto:admin@farrandpursey.com).

Please make all enquiries & add your horse to the list before the end of October for treatment in late February 2027.

To those clients whose horses have previously had the treatment please contact the office if you would like your horse to be included on the treatment list for next year.

## INTRODUCING THE PERFORMANCE MOT

You wouldn't drive your car for years without an MOT, so why not give your horse the same check-up?

Our new Performance MOT looks at three areas that often quietly hold horses back:

- Stomach: gastroscopy to check for ulcers
  - Back: x-rays to assess the spine
  - Front feet: foot balance x-rays, shared with your farrier
- £600 inc VAT, at your yard, visit fee included

You'll get a simple traffic-light report to share with your farrier, saddle fitter, physio and trainer.

Perfect before the season starts, after time off, or when your horse just isn't quite right.

Want more? Add hock x-rays, dental x-rays, routine bloods or Sleip lameness analysis on the same day.

For more information call the practice on 01442 851921 or email [enquiries@farrandpursey.com](mailto:enquiries@farrandpursey.com)

## NEW BLOG: TAKING CARE OF THE OLDER HORSE

In our latest blog post, we look at the preventive care that matters most as horses age — from vaccinations and dental checks to spotting the early signs of Cushing's disease and joint pain. Read the full guide on our website to help keep your older horse comfortable and healthy for years to come.
